Glossary

Properties

The following properties are listed in a table for each variable:

Property	Value
label	Description of variable
Value type	Numeric (decimal or integer), text or date
Unit	Unit of measurement (if applicable)
Question	Interview question corresponding to the variable.
comment	Additional information on the variable. Abbreviations may include: n.i.e (not included elsewhere) and n.o.s (not otherwise specified).

Categories

(Categorized text variables only) Each row is a different category and each column provides the following information on each category:

Name: Value entered in the dataset.

Label: Description corresponding to value.

Missing: Checked if the value corresponds to not answering the question, either because the participant did not know the answer, refused to answer or is missing due to technical issues.
