## Education (ED)

| Overview | The purpose of this section is to collect education data about our population. |
| :--- | :--- |

| ED_1 | ED_OTED_TRF2 |
| :--- | :--- |
| [ALWAYS ASK] |  |
| Since your last interview, have you received any other education that could be counted towards a degree, <br> certificate, or diploma from an educational institution? |  |
| INTERVIEWER INSTRUCTION: WE HAVE ALREADY COLLECTED THEIR EDUCATION HISTORY, WHAT |  |
| WE ARE LOOKING FOR IS ANY ADDITIONAL EDUCATION SINCE BASELINE. |  |
| YES | 1 | Yes $\quad$| NO | 2 | No |
| :--- | ---: | :--- |
| DK_NA | 8 | [DO NOT READ] Don't know / No answer |
| REFUSED | 9 | [DO NOT READ] Refused |

| ED_2 | ED_LIFE_TRF2 |
| :--- | :--- |

## [ALWAYS ASK]

Since your last interview, have you engaged in life-long learning projects, such as courses or instructional workshops?
INTERVIEWER: Informal settings are typically places where learning takes place outside of a formal classroom, for example, museums, zoos, aquarium, science and technology centres, homes, and clubs, for example, bible study and book clubs. Formal settings take place in a classroom such as a university or a college continuing education course or a community-centre pottery course. Internet setting would include both Massive Open On-Line Courses (MOOCS) and other formal courses where there is a curriculum with lesson plans and expectations to evaluate learner outcomes such as a photography or art history course or informal instructional material such as You Tube videos or TED talks.
READ LIST, MULTIPLE RESPONSES ALLOWED (EXCEPT IF 5, 98 OR 99 ARE SELECTED), CODE ALL THAT APPLY

## Home Ownership (OWN)

| Overview | In this module, respondents are asked to provide information about their home <br> ownership status, the value of their home, and the value of their mortgage. |
| :--- | :--- |
| It is important to capture information on home ownership, as quality of life for older |  |
| persons is influenced by their assets and debts, not just income, and home ownership |  |
| is a major asset for many. The information in this module, combined with information |  |
| from the income module, will help researchers to understand the general financial |  |
| situation of older Canadians and to assess its impact on their health. |  |

The next questions are about your current home.

| OWN_2 | OWN_OWN_TRF2 |  |
| :--- | ---: | :--- |
| [ASK IF OWN_DWLG_TRF2 $\neq$ INSTITUTION, DK_NA OR REFUSED] |  |  |

## Gender Identity (GED)

| Overview | By gender identity, we mean the inner sense that you have of yourself as being male or <br> female. Gender identity can be different from your identified sex at birth or your sexual <br> orientation, and it can change over time. |
| :--- | :--- |

| GED_1 | SDC_CURRSEX_TRF2 |  |  |
| :---: | :---: | :---: | :---: |
| [ALWAYS ASK] |  |  |  |
| What is your current gender identity? |  |  |  |
| BY CORRECTLY ADDRESSING SEX AND GENDER IDENTITY WE HAVE AN OPPORTUNITY TO EXAMINE THEIR IMPACT ON AGING AND HEALTH. |  |  |  |
| INTERVIEWER: Gender non-binary people are those whose gender identity is neither as completely as a man nor completely as a woman. They may feel partially as one or the other of the binary genders (men, women) at any one time. They may move around from one to the other from time to time. They may feel that neither of the binary genders applies to them. Some, but not all, gender non-binary people do not consider themselves to be trans because, for them, trans implies identifying as a binary gender. Some, but not all, gender non-binary people consider themselves to be either queer or genderqueer. |  |  |  |
| MAN |  | 01 | Man |
| WOMAN |  | 02 | Woman |
| TRANSMAN |  | 03 | Trans Man |
| TRANSWOMAN |  | 04 | Trans Woman |
| NONBINARY |  | 05 | Gender Non-Binary |
| OTHER |  | 97 | Other |

## Smoking (SMK)

| Overview | This module includes a series of questions about current smoking habits. Questions are asked <br> about frequency of smoking, number of cigarettes smoked in a day. <br> Because tobacco use is one of the leading causes of illness and death in Canada, it is important <br> to examine this issue among Canadians as they age. <br> Information from this module is important for understanding the health consequences of smoking <br> as people age. <br> Note: This module covers smoking cigarettes. Pipe and cigar smoking should not be included in <br> this module.. |

v1.1, 2019 Oct 22
COPYRIGHT PROTECTED - DO NOT DISTRIBUTE

## Alcohol Use (ALC)

| Overview | This module includes questions about how often the respondent drinks alcohol and the <br> frequency of drinking heavily (defined as 5 drinks or more). Alcohol includes red or white <br> wine, beer, spirit or liquor, and other kinds of alcohol including sake, cider, sparkling <br> wine, rose, etc. <br> Consumption of alcohol has a number of implications for health. Excessive drinking is <br> related to a number of diseases and social and mental health problems. Drinking is also <br> an important cause of accidents and injuries. However, under some conditions moderate <br> alcohol consumption might reduce risk of heart disease. |
| :--- | :--- |
| This module will be used to understand patterns of alcohol consumption and the health <br> implications for older Canadians, including the relationship between alcohol consumption <br> and chronic conditions. |  |

Now, some questions about alcohol consumption. Alcohol includes red or white wine, beer, spirits or liquor, and other kinds of alcohol including sake, cider, sparkling wine, rose, etc.

## General Health (GEN)

|  | The general health module is used to collect data on self-perceived health, self- <br> perceived mental health, self-perceived stress and sense of belonging to the local <br> community. |
| :--- | :--- |
| Overview | Researchers are interested in these topics because they are good basic measures of <br> health status. They can also be used to predict other aspects of the respondent's health. <br> For example, respondents who describe their health as fair or poor are more likely to <br> have long-term health problems, to suffer from depression and to be heavy users of the <br> health care system. |

Next I am going to ask you some general questions about your health.

| GEN_1 | GEN_HLTH_TRF2 |  |

## Physical Activities (PA2)

This module is a modification of the Physical Activity Scale for the Elderly (PASE)© 1991 New England Research Institutes (NERI), 9 Galen Street, Watertown, MA 02472. The Canadian Longitudinal Study on Aging is licensed to administer the PASE, and received permission from the NERI.

| Overview | The questions in this module are drawn from the Physical Activity Scale of the Elderly <br> (PASE) and ask about light, moderate and strenuous activities, and exercise, in the past <br> 7 days. Questions also ask about household, work, and volunteer activities in the past 7 <br> days. <br> Importance of module: Answers to this module may be used to assess participants' <br> level of physical activity. Higher levels of activity are associated with better health. |
| :--- | :--- |

Now l'd like to ask you about your level of physical activity. The following questions are about leisure activities, household activities, and work and volunteer activities done over the past 7 days.

## PA2_END

## Nutritional Risk (NUR)

The SCREEN ${ }^{\text {TM }}$ assessment tool is owned by Dr. Heather Keller. Use of the SCREEN ${ }^{\text {TM }}$ assessment tool was made under license from the University of Guelph. This module is a modification of the SCREEN© instrument (Abbreviated version of SCREEN II®) developed by Dr. Heather Keller (University of Guelph, Ontario, Canada).

| Overview | This module is an adapted version of screening tool called Seniors in the <br> Community: Risk Evaluation for Eating and Nutrition (SCREEN II). Questions look <br> at weight change, eating habits, difficulty eating, fruit, vegetable and fluid <br> consumption, and meal satisfaction. In addition, questions ask about frequency of <br> fast-food consumption, coffee and tea consumption, and food security. |
| :--- | :--- |
| Importance of module: The data from this module can be used to estimate the |  |
| prevalence of nutritional risk. Nutritional risk is an indicator of frailty and is |  |
| associated with lower resistance to infection, increased risk of falls, increased use |  |
| of healthcare services, and increased dependency. |  |

The next group of questions ask about your weight and your eating habits on a typical day.

## Oral Health (ORH)

| Overview | In this module, participants are asked to describe the oral health (i.e., health of their <br> mouth), the types of oral health problems they experience (if any), and their tooth <br> brushing and flossing habits. Participants are also asked to report how often they avoid <br> eating particular foods. |
| :--- | :--- |
| Importance of module: To help examine the association between oral health and <br> diseases such as diabetes or respiratory and cardiovascular diseases. The questions <br> also provide information on risk factors for oral health problems. These factors include <br> poor nutrition and socio-economic status. As well, data from this module could help <br> identify groups with the greatest need for improved dental health services. |  |

Now, some questions about the health of your mouth.

| ORH_1 | ORH_HLTH_TRF2 |  |
| :--- | ---: | :--- |

## Subjective Cognitive Decline (SCD)

|  | The questions in this module ask participants about perceived changes in their memory <br> and whether this is of concern to them. These questions will be asked of all participants. <br> Research suggests that these concerns might be an early indicator of a brain disorder <br> even when the person does well on testing. It is important to mention, though, there are <br> many other potential causes (for example, aging, personality traits, effects of medical <br> conditions and their treatment) for these changes, and many people with them do not <br> have evidence of a brain disorder and are not at risk of progressing to more serious <br> thinking problems. |
| :--- | :--- |
| Overview | With the information collected, we will be trying to determine when these concerns <br> represent the early stages of a brain disorder, what factors like age and personality are <br> associated with them, and what influences the likelihood of these changes becoming <br> worse over time. |

## PCM_1 $\quad$ GEN_MEMO_TRF2

## Women's Health (WHO)

| Overview | The women's health module is used to collect data related to reproductive factors, <br> menopause and hormone replacement therapy. |
| :--- | :--- |
| Researchers are interested in these topics because they are known to affect the risk of <br> certain diseases and health outcomes. For example, reproductive factors are known to <br> influence hormone-related cancers like those of the breast and ovary - and the chance of <br> developing osteoporosis (loss of bone mass) increases as women reach menopause. |  |

Have you ever used any hormonal contraceptives for any reason? Hormonal contraceptives include birth control pills, implants, patches, injections and rings or intra-uterine devices that release female hormones.
NOTE: This question is referring to HORMONAL contraception ONLY.

## EXAMPLES OF BOTH HORMONAL AND NON-HORMONAL CONTRACEPTIVES LISTED BELOW:

Intra-uterine devices (IUD) that release hormones:

- Any IUD releasing levonorgestrel - including:
- Mirena ${ }^{\circledR}$
- Skyla ®
- Jaydess ®

IUDs that do NOT release hormones:

- Any Copper containing IUDs
- Any inert IUDs (containing no bioactive components)

Other contraceptives that do NOT release hormones:

- Diaphragm
- Cervical caps
- Female condoms
- Male condoms
- Vaginal spermicides

## Cognition (COG)

Rey Auditory Verbal Learning Test: This test is adapted from André Rey, "L'examen psychologique dans les cas d'encéphalopathie traumatique, " Archives de psychologie 28:21, 1941. Recently the procedure has been described and discussed in more detail and with some modifications in André Rey, "L'examen clinique en psychologie," (Paris: Presses Universitaires, 1958), pp. 141-193.
The Mental Alternation Test (MAT)@ is modeled on the Trail making test. The MAT was developed by Dr. Evelyn Teng (University of Southern California), who gave the Canadian Longitudinal Study on Aging permission to use the test.

| Overview | INTERVIEWER NOTES: REMINDER TO USE THE SCRIPT PRECISELY AS <br> PROVIDED AND TO ADHERE TO THE PRESCRIBED TIME ALLOWANCES IN THE <br> FOLLOWING COGNITION MODULES. |
| :--- | :--- |

Now, I am going to ask you to complete some tasks related to memory and concentration. Some of these tasks might seem difficult and some might seem easy, but that's the way it is supposed to be. We don't expect you to get them all right; we are asking everyone to do these tasks.

| COG_A | COG_REC_TRF2 |  |

## Chronic Conditions (CCT)

Overview

This module deals with long-term health conditions, diagnosed by a health professional, that have lasted or are expected to last at least 6 months.

Answers to the questions in this module can be used to estimate the number of people in Canada suffering from chronic conditions such as diabetes, heart disease and Parkinson's disease.

By combining answers from this module with information from other modules, researchers can look at the relationship between chronic conditions and other characteristics, such as use of health care services or level of physical activity.

Now l'd like to ask about any chronic health conditions which you may have. We are interested in "longterm conditions" which are expected to last, or have already lasted 6 months or more and that have been diagnosed by a health professional.

## Osteoarthritis

## Infections

Now I would like to ask you a few questions about infections you may or may not have recently experienced.

| CCT_41 | CCT_INF_TRF2 |
| :--- | :--- |
| [ALWAYS ASK] |  |
| In the past year, have you seen a doctor for any of the following reasons? |  |

## READ EACH CONDITION, CODE ONLY ONE RESPONSE PER CONDITION

NOTE: Influenza, commonly referred to as the flu, is an infectious disease caused by RNA viruses. The most common symptoms of the disease are chills, fever, sore throat, muscle pains, severe headache, coughing, weakness/fatigue, and general discomfort. Influenza is different from the common cold or the 'stomach flu' (which is actually a type of gastroenteritis).

## Parkinsonism (PKD)

The Canadian Longitudinal Study on Aging received permission from Dr. Caroline Tanner (instrument developer) for the use of this instrument.

| Overview | In this module, participants are asked about parkinsonism or Parkinson's disease to help <br> us estimate the percentage of people in the study who may be affected with either <br> disorder. |
| :--- | :--- |
| Importance of module: Parkinsonism is any condition that causes a combination of the <br> movement abnormalities seen in Parkinson's disease, such as tremors, slow movement, <br> impaired speech, or muscle stiffness. Not everyone who has parkinsonism has <br> Parkinson's disease. |  |
| Parkinson's disease is a degenerative disorder of the central nervous system. Early in <br> the course of the disease, the most obvious symptoms are movement-related; these <br> include shaking, rigidity, slowness of movement and difficulty with walking and gait. <br> Later, cognitive and behavioural problems may arise, with dementia commonly occurring <br> in the advanced stages of the disease. Other symptoms include sensory, sleep and <br> emotional problems. |  |

I would now like to ask a few questions about Parkinsonism or Parkinson's Disease. Although you may not have either condition, or any of the symptoms related to either condition, please answer the questions to help us estimate the percentage of people in the study who do or do not have these conditions or symptoms.

| PKD_1 | PKD_PARK_TRF2 |

## Epilepsy (EPI)

This module uses the Canadian Longitudinal Study on Aging Epilepsy Algorithm (CLSA-EA) questionnaire. The CLSA-EA questionnaire was developed and validated by Dr. Mark Keezer and his research team.

I would like to ask a few questions about epilepsy. Although you may not have this condition, or any of the symptoms related to it, please answer the questions to help us estimate the percentage of people in the study who do or do not have this condition or symptoms.

For each of the following questions, please answer "yes", "no", or "possible".
[UNLESS OTHERWISE SPECIFIED, CONTINUE FROM ONE QUESTION TO THE NEXT]

| EPI_1 | EPI_CAUS_FEV_TRF2 |  |

## Basic Activities of Daily Living (ADL)

This module is a modification of the Activities of Daily Living questions of the OARS Multidimensional Assessment Questionnaire© developed by Dr. Gerda G. Fillenbaum (Duke University Medical Center). The Canadian Longitudinal Study on Aging received permission from Dr. Fillenbaum (instrument developer) for the use of this instrument.

| Overview | The Activities of Daily Living (ADL) scale assesses respondents' ability to perform basic <br> daily activities. Activities of daily living are the tasks considered vital to live independently <br> in the community. |
| :--- | :--- |
| The respondent is asked whether help is needed when feeding and dressing oneself, <br> taking care of their appearance, walking around, getting in and out of bed, bathing, and <br> whether they have incontinence problems. These basic daily activities can be difficult to <br> perform for people with mobility restrictions or limitations. |  |
| Information on activities of daily living will help provide insights into limitations that <br> Canadians may face in day to day living, as well as how these limitations change as <br> people age. It is a measure related to the need for caregivers and home care services. |  |

Now l'd like to ask you about activities of daily living. You may feel that some of these questions do not apply to you, but it is important that we ask the same questions of everyone.

## Instrumental Activities of Daily Living (IAL)

This module is a modification of the Activities of Daily Living questions of the OARS Multidimensional Assessment Questionnaire® developed by Dr. Gerda G. Fillenbaum (Duke University Medical Center). The Canadian Longitudinal Study on Aging received permission from Dr. Fillenbaum (instrument developer) for the use of this instrument.

|  | The Instrumental Activities of Daily Living (IADL) scale assesses respondents' ability to <br> independently perform a series of daily activities. |
| :--- | :--- |
| Overview | The respondent is asked whether or not help is needed when using the telephone, <br> traveling, shopping, cooking, doing housework, taking medicine and handling money. <br> Information on instrumental activities of daily living will help provide insights into <br> limitations that Canadians may face in day to day living, as well as how these limitations <br> change as people age. It is a measure related to the need for caregivers and home care <br> services. |
| This module is a companion to the ADL module. |  |

Now I'd like to ask you about some activities of daily living, activities that can be done without help, with some help or which you are unable to do. You may feel that some of these questions do not apply to you, but it is important that we ask the same questions of everyone.

## Depression (DEP)

The Canadian Longitudinal Study on Aging received permission from Dr. Elena Andresen (instrument developer) for the use of the Center for Epidemiological Studies Short Depression Scale (CES-D-10).

|  | Many people feel depressed at one time or another, to varying degrees. However, long <br> lasting depression is a serious mental and physical health concern. |
| :--- | :--- |
| Overview | This module consists of a series of detailed questions about depression. The answers <br> will be combined to determine how likely it is that the respondent is depressed. <br> This module gathers information on the length, timing and consequences of depressive <br> episodes. |

## For the next few questions, please think about how you have felt in the past week that is from [DATE ONE WEEK AGO] to yesterday. Choose the answer that most applies best.

I will first read you a question and then I will read you the answers from which you may choose. Please choose the answer that best applies to how you have felt over the past week.

## Satisfaction with Life Scale (SLS)

Diener E, Emmons RA, Larsen RJ, Griffin S. (1985). The satisfaction with life scale. J Pers Assess, 49(1), 71-75.

| Overview | This module asks respondents how satisfied they are with their life overall. Researchers <br> are interested in the connection between satisfaction with life and overall physical and <br> mental health and well-being. The degree to which a person is satisfied with life may be <br> related to social support, work or activities, and may be negatively affected by major <br> losses. |
| :--- | :--- |

We will be asking you a number of questions about your overall mental health throughout today's interview. Some of the questions may seem similar but they are looking at slightly different outcomes which are important for determining overall well-being of our participants. Please answer them to the best of your ability without considering your previous answers for similar questions.

Now I will read some statements that people might use to describe their satisfaction with their lives. Please tell me if you disagree or agree with each statement.

## Loneliness Scale (LON)

| Overview | Loneliness is a prevalent and complex phenomenon that has a substantial impact on <br> many aspects of the lives of middle-aged and older adults. The concept of loneliness is <br> often described as the subjective counterpart to social isolation. While social isolation <br> can be measured objectively by capturing the quantity and quality of social network <br> characteristics (included in the CLSA), loneliness needs to be measured subjectively by <br> questioning perceptions and feelings with regards to social relationships and social <br> activity. |
| :--- | :--- |

The next questions are about how you feel about different aspects of your life. For each one, tell me how often you feel that way.

| LON_1 | LONE_OFTN_TRF2 |  |
| :--- | ---: | :--- |

## LON_END

## Social Networks (SN)

|  | Social functioning emphasizes issues of sustained engagement with life, the <br> essential characteristic being the interaction between the individual and society. <br> Exchanges between individuals and society all contribute to social functioning; <br> these exchanges are facilitated through family and other social ties. |
| :--- | :--- |
| Overview | The CLSA includes measures that cover both structural (e.g., social network <br> size, frequency of contact) and functional (perception of support received) <br> domains relevant to social support. The CLSA Questionnaire includes 15 items <br> pertaining to the respondent's social network; these items include <br> marital/partner status, living arrangements, family composition, social ties and <br> social contacts. |

Now I'm going to ask you some questions about who lives in your household with you and what their relationship is to you. I will also be asking some questions about your children and, whether or not they currently live with you.

| SN_1 | SN_LIVH_NB_TRF2 |

## Social Support - Availability (SSA)

|  | The ability of people to call on support when they need it is important in <br> understanding their overall health. For example, having somebody to take you to a <br> medical appointment may mean that you are more likely to get the care you need. <br> Overview <br> This module consists of a series of detailed questions about the availability of <br> social support. The answers will be combined to determine how likely it is that the <br> respondent has access to social support. <br> The results of this module will be valuable in identifying which groups are most <br> lacking in social support. |
| :--- | :--- |

Next are some questions about the support that is available to you.

| People sometimes look to others for companionship, assistance or other types of support. How often is each of the following kinds of support available to you if you need it? READ LIST OF STATEMENTS, CODE ONLY ONE RESPONSE PER STATEMENT. |  |  |

## Generalized Anxiety Disorder (GAD)

A Brief Measure for Assessing Generalized Anxiety Disorder The GAD-7
Robert L. Spitzer, MD; Kurt Kroenke, MD; Janet B. W. Williams, DSW; Bernd Lo"we, MD, PhD ARCH INTERN MED/VOL 166, MAY 22, 2006, 1092

| Overview | The questions in this module come from the GAD-7, which measures how much the <br> person has been bothered by feeling nervous, anxious, or on edge, not being able to <br> stop or control worrying, worrying too much about different things, having trouble <br> relaxing, being so restless that it is hard to sit still, becoming easily annoyed or irritable, <br> and feeling afraid as if something might happen. |
| :--- | :--- |
| Importance: Generalized anxiety disorder interferes with everyday functioning. This <br> includes work or school, social activities, and relationships with other people. It also <br> increases the risk of drug abuse and eating disorders. |  |

We will be asking you a number of questions about your overall mental health throughout today's interview. Some of the questions may seem similar but they are looking at slightly different outcomes which are important for determining overall well-being of our participants. Please answer them to the best of your ability without considering your previous answers for similar questions.

| GAD_1 |  |  |  |  |  |  |  |

## Care Receiving 1/ Formal Care (CR1)

Overview

> This is the first of two modules that address care received at home during the past 12 months. This first module asks respondents whether they received home care services provided by professionals due to a health problem that affects their daily activities. The second module asks about assistance from family, friends, and neighbours.
> In this module, respondents are asked to report assistance provided by paid workers or organizations for various activities, such as medical care, personal care, housework, transportation, etc. Respondents are also asked about home care they needed but did not receive.
> Formal home care is considered to be an important part of health care reform. Both the health care system and the care recipient may benefit if some types of care are provided in the home instead of in a hospital or institution.

Now some questions on home care services you may have received because of a health condition or limitation that affects your daily activities. These services include health care, homemaker, or other support services received at home. We ask that you include only services provided by professionals or paid workers.

## Care Receiving 2/ Informal Care (CR2)

| Overview | This module asks respondents whether they received home care services during the <br> past 12 months. This module is about assistance provided by family members, friends or <br> neighbours (informal caregivers) due to a health problem that affects their daily activities. <br> Respondents are asked to report assistance provided for various activities, such as <br> medical care, personal care, housework, transportation, etc. |
| :--- | :--- |
| The module covers a number of topics related to informal home care including the <br> identity of the person providing assistance, the duration and level of intensity of the care <br> received. |  |

The following questions are about the types of assistance that you may have received because of a health condition or limitation. Please include only assistance from family, friends, or neighbours.

## Care Giving (CAG)

| Overview | This module asks respondents whether they provided assistance to others because of a <br> health condition or limitation during the past 12 months. <br> The module covers a number of topics related to assisting others, including the types of <br> assistance provided, total number of people a respondent provided with assistance, <br> information about the person the caregiver helps the most, the impact of providing <br> assistance on work and health, and positive and negative aspects of providing <br> assistance. <br> Information gathered in this module will be useful in providing information about <br> caregiving as well as the characteristics of informal caregiving situations. |
| :--- | :--- |

The following questions are about the types of assistance you may have provided to other people because of a health condition or limitation. Please only include assistance you provided to family members, friends and other people living both inside and outside your household. Exclude any assistance you provided as part of a volunteer organization or paid job.

## Falls (FAL)

| Overview | The questions in this module ask about falls in the past 12 months where the respondent <br> has been hurt enough to limit some or all of their normal activities, if the respondent is <br> receiving follow-up care for a fall-related injury, and fear of falling. |
| :--- | :--- |
| Falling is the most common cause of injuries among older Canadians. Falls are also <br> among the leading causes of hospitalization for seniors presenting with an injury. Fear of <br> falling and its potential association with disability, functional mobility, and activity <br> limitation is an emerging public health problem. |  |

## PROGRAMMING NOTE:

THIS MODULE IS ADMINISTERED ONLY IF INJ_CAUS_TRF2=INJ_CAUS_FL_TRF2
OR INJ_HOW_TRF2=FALL_SAME_LEVEL OR INJ_HOW_TRF2=FALL_HEIGHT
You mentioned that you had at least one injury as a result of a fall. We would now like to ask you some questions about falls that you experienced in the last 12 months where you hurt yourself enough to limit some of your normal activities.

## Retirement Status (RET)

| Overview | The questions in this module ask about such things as age at retirement, main reasons <br> for retirement, labour force participation and ability to work. <br> This module also asks about partial retirement for respondents who may have officially <br> retired, but continued working or who are taking gradual retirement. |
| :--- | :--- |
| It is important to understand the reasons behind decisions about retirement for older <br> Canadians. Information gathered in this module will help in understanding why people <br> choose to retire and whether they might continue to work afterwards. |  |

The following questions ask about your retirement experience.

| RET_1 | RET_RTRD_TRF2 |  |
| :--- | ---: | :--- |
| [ASK IF RET_RTRD_TRF1 = NOT_RETIRED, PARTLY_RETIRED] |  |  |
| At this time, do you consider yourself to be completely retired, partly retired or not retired? |  |  |
| CODE ONLY ONE RESPONSE |  |  |
| COMPLETELY_RETIRED | 1 | Completely retired |
| PARTLY_RETIRED | 2 | Partly retired |
| NOT_RETIRED | 3 | Not retired |
| NEVER_PAID | 4 | Never held a paid job |
| DK_NA | 8 | [DO NOT READ] Don't know / No answer |
| REFUSED | 9 | [DO NOT READ] Refused |

| RET_2 | RET_RTRN_TRF2 |  |
| :--- | ---: | :--- |
|  <br> RET_RTRD_TRM = COMPLETELY RETIRED] |  |  |
| After retirement, some people return to work and later retire again. Since your last interview have you retired <br> and then returned to work? |  |  |
| YES | 1 | Yes |
| NO | 2 | No |
| DK_NA | 8 | [DO NOT READ] Don't know / No answer |
| REFUSED | 9 | [DO NOT READ] Refused |

| RET_3 | RET_SPSE_TRF2 |  |
| :--- | ---: | :--- |
| [ASK IF SDC_MRTL_TRF2 = COMMON_LAW, if NULL then SDC_MRTL_TRF1=COMMON_LAW, if NULL |  |  |
| then SDC_MRTL_TRM=COMMON_LAW] |  |  |
| Is your spouse/partner retired? |  |  |
| YES | 1 | Yes |
| NO | 2 | No |
| DK_NA | 8 | [DO NOT READ] Don't know / No answer |
| REFUSED | 9 | [DO NOT READ] Refused |

Please answer the following questions as they relate to your retirement experience, since your previous interview.

| RET_5a | RET_SPSEAG_NB_TRF2 |
| :--- | :--- |
| [ASK IF RET_SPSE_TRF2 $=$ YES] |  |
| At what age did your spouse/partner retire? |  |

## Labour Force (LBF)

|  | T <br> W |
| :--- | :--- |
| Overview |  |
| reas |  |
|  | T |
|  | c |

This module includes a number of questions on the respondent's work life, including whether they are employed, unemployed or retired. Questions about occupation, reasons for not working, and usual work schedule are also asked.

There are many relationships between work and health. For example, unemployment can cause various stress-related illnesses while some occupations are more likely to cause repetitive strain injuries.

PROGRAMMING NOTE: THIS MODULE IS ADMINISTERED ONLY IF RET_RTRN_TRF2 = YES OR RET_RTRD_TRF2 = PARTLY_RETIRED OR NOT_RETIRED

The next few questions concern your current and past employment activities.

## RPL_END

## Income (INC)

| Overview | In this module, respondents are asked to provide their individual and household <br> incomes. Questions in the module seek to identify all sources of household and personal <br> income, as well as the main source for each. <br> Follow up questions are asked about Canada or Quebec pension plan benefits. Since a <br> person's financial situation includes more than just income, respondents are also asked <br> to estimate the value of their savings and investments, excluding the value of their <br> principal residence and employer pension plans. The respondent is also asked whether <br> their income covers their basic expenses. |
| :--- | :--- |
| Although it is a sensitive topic, this information is important for studying health trends <br> and behaviours; even though many healthcare costs in Canada are covered by <br> insurance, income still plays an important role in people's health, particularly for older <br> Canadians. People with lower incomes are more likely to have poorer health, and people <br> of different income levels also tend to use the health care system differently. |  |

This next section is about your income. As with all of the other information that you have shared, these answers are kept strictly confidential.

## Household Income

## Health Care Utilization (HCU)

| Overview | This module covers a number of topics related to the use of health care services, <br> including whether the participant has a regular medical doctor, uses medical specialists, <br> or uses practitioners of alternative medicine. |
| :--- | :--- |
| Importance of module: This module is relevant to policy makers, health care planners, <br> and researchers, who may use the data to compare how different groups, e.g., men <br> versus women, urban versus rural -dwellers, use health services. This type of research <br> can help determine who needs better access to healthcare services. |  |

Now I would like to ask you about your contacts with healthcare professionals or the healthcare system during the past 12 months.

## HCU_TRF2

During the past 12 months, have you had contact with any of the following about your physical or mental health?

## [ALWAYS ASK]

INTERVIEWER INSTRUCTION: A YES / NO / DK_NA / REFUSED RESPONSE IS REQUIRED FOR EACH QUESTION IN THE TABLE

v1.1, 2019 Oct 22

## Unmet Health Care Needs (MET)

|  | Access to health care services is often evaluated by considering frequency of use of <br> health care services. However, such research does not capture information from those <br> who do not use health care services or the reasons for not using services. Self-perceived <br> unmet need for health care services is often used as a measure of the adequacy of <br> access to services. |
| :--- | :--- |
| Overview | The data collected can help researchers determine what factors contribute to unmet <br> health care needs and how important lack of access is in determining unmet health care <br> needs. |

| MET_1 | MET_NEED_TRF2 |  |
| :--- | ---: | :--- |
| [ALWAYS ASK] |  |  |
| During the past 12 months, was there ever a time when you felt that you needed health care but you didn't <br> receive it? |  |  |

## Medication Use (MED)

| Overview | The lone question in this module pertains only to prescription medications taken in the <br> past month. |
| :--- | :--- |
| Importance of module: The results help assess the frequency of prescription <br> medication use (i.e., daily versus occasional use). The results also permit examination of <br> the relations between frequency of drug usage and (1) the incidence/prevalence of <br> health problems or (2) the utilization of other healthcare services. |  |

The next question asks about your use of prescription medications.

| MED_1 | MED_USE1_TRF2 |
| :--- | :--- |
| [ASK IF NO TO ALL MEDS IN PKD SECTION] |  |
| How often in the past month did you take one or more prescription medications? |  |

INTERVIEWER INSTRUCTION: A PRESCRIPTION MEDICATION IS A DRUG THAT IS AVAILABLE FROM A PHARMACIST ONLY WITH WRITTEN INSTRUCTIONS FROM A DOCTOR OR A DENTIST. THIS QUESTION DOES NOT PERTAIN TO OVER-THE-COUNTER MEDICATIONS, WHICH MAY BE PURCHASED WITHOUT SUCH WRITTEN INSTRUCTIONS.

| DAILY | 1 | Daily |
| :--- | ---: | :--- |
| EVERY_WEEK | 2 | Every week, but not daily |
| LESS_EVERY_WEEK | 3 | Less often than every week |
| NEVER | 4 | Never |
| DK_NA | 8 | [DO NOT READ] Don't know / No answer |
| REFUSED | 9 | [DO NOT READ] Refused |

| MED_1a | MED_USE2_TRF2 |
| :--- | :--- |

[ASK IF ANY MEDICATION IN PKD_MED_TRF2 = YES]
How often in the past month did you take one or more prescription medications?

INTERVIEWER INSTRUCTION: A PRESCRIPTION MEDICATION IS A DRUG THAT IS AVAILABLE FROM A PHARMACIST ONLY WITH WRITTEN INSTRUCTIONS FROM A DOCTOR OR A DENTIST. THIS QUESTION DOES NOT PERTAIN TO OVER-THE-COUNTER MEDICATIONS, WHICH MAY BE PURCHASED WITHOUT SUCH WRITTEN INSTRUCTIONS.

INTERVIEWER NOTE: The response "Never" is not an option for this question because the participant indicated in the Parkinson's module they were taking at least one prescription medication for that condition.

| DAILY | 1 | Daily |
| :--- | ---: | :--- |
| EVERY_WEEK | 2 | Every week, but not daily |
| LESS_EVERY_WEEK | 3 | Less often than every week |

## Dietary Supplement Use (DSU)

| Overview | The questions in this module ask about the frequency of use of multivitamins, calcium, <br> vitamin D, and B12 supplements. <br> Importance of module: Vitamin D and calcium are important for bone strength and may <br> reduce the risk of osteoporosis and fractures in older adults. After the age of 50, the <br> average person's vitamin D needs are higher than can be obtained from food alone. |
| :--- | :--- |
| Data from this module can help to estimate the frequency of dietary supplement use. <br> The data could also provide information for prevention programs related to diet, as well <br> as information about the impact of combined usage of drugs/medications and <br> supplements. |  |

Now, some questions about your use of nutritional supplements in the past month.
Please note this can include BOTH prescription and non-prescription supplements.

## Built Environments (ENV)

| Overview | Built environments can impact human health by influencing an individual's day-to-day activities, <br> including levels of physical activity, access to healthy foods, opportunities for social interaction, <br> and safety of travel. |
| :--- | :--- |

## ENV_1 $\quad$ ENV_FLPRTAREA_TRF2

## [ALWAYS ASK]

How do you feel about your local area, that is, everywhere within a 20 minute walk or about a mile from your home? Please tell me how strongly you agree or disagree with the following statements.

INTERVIEWER INSTRUCTION: If the participant lives in a rural location their perception of local area may not be within 1 kilometer or a 20 -minute walk from their home. Please inform the participant that "local area" should be what it means to them as the community which they live in.

|  |  | Strongly agree | Agree | Disagree | Strongly disagree | DK | RF |

## Transportation, Mobility, Migration (TRA)

The questions in this module were adapted from the Baseline Survey of Seniors (Older and Wiser Driver Questionnaire) developed by the Centre on Aging - University of Victoria. The Canadian Longitudinal Study on Aging received permission from the Centre on Aging - University of Victoria for the use of this instrument.

| Overview | The questions in this module ask participants about their driving status, the types of <br> transportation they use, and how long they have lived in their present home and <br> community. |
| :--- | :--- |
| Importance of module: These questions will provide data about participants' ability and <br> transportation functionality over time. |  |

Now I would like you to focus on how you get around the area where you live. I will ask about the types of transportation you use, as well as how long you have lived in your current location.

| TRA_1 | TRA_DSTATUS_TRF2 |  |
| :--- | ---: | :--- |

## Wealth (WEA)

| Overview | The questions in this module ask participants about their current incomes, investments, <br> and assets to measure socioeconomic status. |
| :--- | :--- |
| Importance of module: Although sensitive, this information is important for studying the <br> impact of wealth on health trends and behaviours. Even though many healthcare costs <br> in Canada are covered by insurance, income still plays an important role in people's <br> health, particularly for older Canadians. People with lower incomes are more likely to <br> have poorer health, and people of different income levels also tend to use the <br> healthcare system differently. |  |

Now some questions about your overall financial situation.

| WEA_1 | WEA_SVNGS_TRF2 |  |
| :--- | ---: | :--- |
| [ALWAYS ASK] |  |  |
| Which, if any, of the following savings and investments do you (and your spouse/partner) have? |  |  |

## Positive Mental Health (PMH)

Keyes, C. L. M. (2009). Atlanta: Brief description of the mental health continuum short form (MHC-SF).
https://www.aacu.org/sites/default/files/MHC-SFEnglish.pdf

| Overview | The questions in this module come from the Mental Health Continuum-Short Form. <br> These questions measure emotional, psychological, and social well-being. |
| :--- | :--- |
|  | Importance: High levels of positive mental health are associated with better physical, <br> psychological, and psychosocial functioning, while low levels of positive mental health <br> are related to poor emotional health, frequent limitations of daily living, and more <br> missed days of work. |

The following questions are about how you have been feeling during the past month and how often you have experienced or felt those feelings.

| PMH_1 | PMH_OVERVIEW_TRF2 |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| [ALWAYS ASK] |  |  |  |  |  |  |  |  |  |
| During the past month, how often did you feel ... |  |  |  |  |  |  |  |  |  |
|  |  | NEVER | $\begin{gathered} \text { ONCE } \\ \text { OR } \\ \text { TWICE } \end{gathered}$ | ABOUT ONCE A WEEK | $\begin{aligned} & \text { ABOUT } \\ & 2 \text { OR } \\ & \text { TIMES A } \\ & \text { WEEK } \\ & \hline \end{aligned}$ | ALMOST EVERY DAY | $\begin{gathered} \hline \text { EVERY } \\ \text { DAY } \end{gathered}$ | [DO NOT READ] DK_NA | $\begin{gathered} \text { [DO } \\ \text { NOT } \\ \text { READ] } \\ \text { RF } \end{gathered}$ |
| $\begin{aligned} & \text { PMH_2 } \\ & \text { PMH_HAPPY_ } \\ & \text { TRF2 } \end{aligned}$ | Happy |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_3 } \\ & \text { PMH_INTERST } \\ & \text { _TRF2 } \end{aligned}$ | Interested in life |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \hline \text { PMH_4 } \\ & \text { PMH_SATISFI } \\ & \text { ED_TRF2 } \end{aligned}$ | Satisfied with life |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_5 } \\ & \text { PMH_IMPORT } \\ & \text { ANT_TRF2 } \end{aligned}$ | That you had something important to contribute to society |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \hline \text { PMH_6 } \\ & \text { PMH_COMMU } \\ & \text { NT_TRF2 } \end{aligned}$ | That you belonged to a community (like a social group, or your neighborhood) |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_7 } \\ & \text { PMH_GOODPL } \\ & \text { TRF2 } \end{aligned}$ | That our society is a good place, or is becoming a better place, for all people |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_8 } \\ & \text { PMH_PPLGOO } \\ & \text { D_TRF2 } \\ & \hline \end{aligned}$ | That people are basically good |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_9 } \\ & \text { PMH_SOCIET } \\ & \text { YWRK_TRF2 } \end{aligned}$ | That the way our society works makes sense to you |  |  |  |  |  |  |  |  |

Telephone Questionnaire (Follow Up 2)
v1.1, 2019 Oct 22

|  |  | NEVER | $\begin{gathered} \text { ONCE } \\ \text { OR } \\ \text { TWICE } \end{gathered}$ | ABOUT A WEEK | ABOUT TIMES A WEEK | ALMOST EVERY DAY | $\begin{gathered} \text { EVERY } \\ \text { DAY } \end{gathered}$ | $\begin{gathered} \text { [DO NOT } \\ \text { READ] } \\ \text { DK_NA } \end{gathered}$ | $\begin{gathered} \text { [DO } \\ \text { NOT } \\ \text { READ] } \\ \hline \text { RF } \\ \hline \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| PMH_10 PMH-LIKEYO U TRF2 | That you liked most parts of your Personality |  |  |  |  |  |  |  |  |
| PMH_11 <br> PMH-MANAG <br> E_TRF2 | Good at managing the responsibilities of your daily life |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_12 } \\ & \text { PMH_RELATIO } \\ & \text { NSHP_TRF2 } \end{aligned}$ | That you had warm and trusting relationships with others |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_13 } \\ & \text { PMH_BETTER } \\ & \text { _TRF2 } \end{aligned}$ | That you had experiences that challenged you to grow and become a better person |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_14 } \\ & \text { PMH_CONFID } \\ & \text { ENT_TRF2 } \end{aligned}$ | Confident to think or express your own ideas and opinions |  |  |  |  |  |  |  |  |
| $\begin{aligned} & \text { PMH_15 } \\ & \text { PMH_DIRECTI } \\ & \text { ON_TRF2 } \end{aligned}$ | That your life has a sense of direction or meaning to it |  |  |  |  |  |  |  |  |
